WHITE ABS AUTOMATIC GEL & SOAP DISPENSER

+MEDICHIEF™
making the world a safer place

Sleek white abs design with infrared sensor technology.

Constructed from gloss white ABS plastic, this stylish wall-mounted gel & soap dispenser is designed to fit in to any environment and provide an efficient, tamper-proof solution for hand cleaning.

The dispenser is automatically operated, with an adjustable dosage volume, ensuring efficient usage of hand gel or soap.

Due to its anti-tamper hinged lid, the dispenser can easily be refilled and maintained. The lid is key-locked and can be quickly opened to provide access to the internal tank for refilling or maintenance.

The dispenser also has a unique security feature to secure it to the wall bracket. The dispenser can be secured by a key-lock on the underneath of the dispenser unit, which means that it cannot be easily removed from the wall bracket, making it tamper-proof.

MODEL:
MDA850W
