ARTICLE GROUP : **ANMX30++** | ARTICLE FAMILY : **Drinking fountains chilled** | PRODUCT GROUP : **Water dispensers**

The range of Water Gem water coolers and drinking fountains from Franke Sissons offer a low maintenance and reliable solution where chilled drinking water is required in commercial buildings. Available as either floor standing or wall mounted and with or without a bottle filler, the products are connected direct to the mains water supply and supply an unlimited amount of chilled water which always has a fresh taste. The products are made from durable coated steel panels and have an easy to open front pane for installation and maintenance. The key for the Water gem products is the same as for the Franke Rodan series of washroom accessories to simplify the number of keys needed for maintenance purposes. The products are provided with a chlorine based water filter as standard and this is recommended to be replaced every 6 months. Replacement filters are available from Franke Sissons.

With water filter and bottle filler

TECHNICAL DATA

Drinking bubbler	yes
Glass filler	yes
Gross weight	30.50 kg
Material	Stainless steel
Material code	1.4301 Chrome Nickel steel V2A
Material thickness	1.20 mm
Net weight	30.50 kg
Outlet size	DN 32
Overall depth	325.00 mm
Overall height	960.00 mm
Overall width	328.00 mm
Surface finish	satin finished
Type of mounting	FLOOR-MOUNTING
Type of operation	Manual operation
Product code	213.0000.005
Cooling capacity	25.00 liter per hour
