

PLASTER SINK: G22000R

G22000R | 2000100260

ARTICLE GROUP : **G22000++** | ARTICLE FAMILY : **Plaster of paris sinks** | PRODUCT GROUP : **Hospital equipment**

Plaster sink top manufactured from 1.2mm thick grade 1.4301 (304) stainless steel, with a satin polish finish, the bowl is made from 1.5mm material. Available in 1200 length the single bowl incorporates a plaster catcher sump which is prepared for a 38mm waste. A flush grated waste is available as an extra. A plaster catcher/basket and lid is supplied which fits into the sump in order to prevent loose plaster from entering the waste and causing a blockage. No tapholes are provided so any taps to be fitted must be wall mounted. Stainless steel cantilevered brackets and stainless steel front leg supports can be supplied as an extra. Both these types of supports rely on a strong wall fixing, particular when the brackets are fitted. No wall fixing are supplied. L or R after the code number refers to the handing of the drainer ie. left or right when facing the unit.

Manufactured in accordance with the old HTM64 standard and the Health Building Notes 00-10, part C

Right hand drainer

TECHNICAL DATA

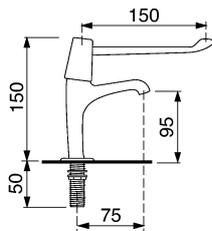

Bowl height	440.00 mm
Bowl width	440.00 mm
Bowl depth	500.00 mm
Gross weight	22.50 kg
Material	Stainless steel
Material code	1.4301 Chrome Nickel steel V2A
Material thickness	1.20 mm
Net weight	21.10 kg
Overall depth	600.00 mm
Overall width	1,200.00 mm
sump depth	200.00 mm
Surface finish	satin finished
Type of mounting	Wall mounting
Waste size	DN 32
Product code	207.0000.062
