

Inclined Infrared Deck-Mounted Tap

**contactless operation
intergrating
style and hygiene
together as one**

Introduction

Delivering water without contact with the tap is an ideal solution where hygiene is paramount, such as public toilets and washrooms. The users presence is detected by an Infrared sensor which controls a solenoid valve to turn on a timed flow of water. This tap has been designed for use with an approved Intamix thermostatic mixing valve.

IR500CP
Infrared Deck Mounted Tap

- Infrared Touch Free Operation
- Timed Flow Control Automatically Closes The Tap
- Hygiene Flush Every 24 Hours Without Operation
