KG255 Drop Rail

Anti-ligature Disclaimer

Anti-ligature Disclaimer The anti-ligature design characteristics of this product are not intended to replace or substitute the need for necessary supervision of those who may be at risk, or for other necessary protective measures to be taken in the specific circumstances of usage. Kingsway Group, Inc. does not offer any products for sale as being 'ligature-free' and will not be liable for any claims arising from ligature attachment on its products. It is the customer's responsibility to ensure that products purchased and installed are suitable for the environments they are installed in.

The WC Drop Rail is a sturdy hinged arm that can be locked in the upright position when not in use. Manufactured from heavy gauge steel for maximum strength and powder coated for extra comfort and for matching or contrasting to the surroundings.

Installation description

- Place the drop rail unit on the wall and mark the 14 fixing points.
- Drill holes for the 14 points and insert suitable plugs.
- Fix the drop rail in place using the security screws provided.

Operation and Maintenance

Operation

1. Ensure that you and others are clear of the rails drop path.
2. Please ensure that rails are supported whilst unlocking with the key by holding the tab located at the top of the rail.
3. Carefully lower the rail into place.

To return and lock the rail

4. Ensure that the area of the rail is clear.
5. Lift the rail and support in the returned position by holding the tab whilst locking.
6. Carefully check that the lock has engaged by gently pulling the tab at the top of the rail. (If the rail begins to lower, repeat the locking procedure whilst supporting the rail).

Maintenance

Light lubricant can be used on moving parts and periodic checks should be made to fixings and general smooth operation of the arm.

Cleaning

Avoid the use of caustic cleaners and where necessary only a light detergent should be used.

Guarantee

10 Year Guarantee*

*for faulty manufacture and not for damage.
