

SGL Laminate Benches

Changing Room Locker Colour Choices

Where appearance counts and benches need to withstand heavy use, our range of solid grade laminate (SGL) benches are ideal. The water proof slats, steel frames and sturdy composition of these lockers allow the surface to withstand a great deal of punishment in demanding environments such as schools, universities, leisure facilities and many more.

SGL, or solid grade laminate is a material that's completely impervious to water, so will never swell or weaken from ingress water. With layers of paper and strong resin, and at only 10mm thickness, SGL bench seats are popular for their durability and performance.

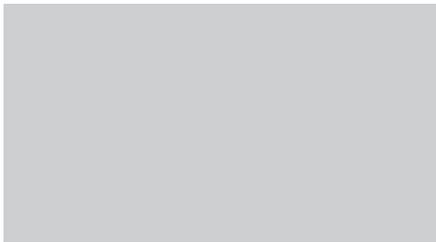

Our standard benches are available in 3 stylish and versatile colour options that we keep in stock, meaning they can be delivered to you quickly. We also have a huge range of bespoke colours available, which can be seen on our Polyrey colour chart. Bespoke colours will be priced on request and may have a longer lead time.
