

## Non Concussive Wall Mounted Push Taps

inta taps used as water economy device operate **for a period of time** and then closes automatically

### Introduction

The Inta range of wall and basin mounted push taps is designed for use with our range of thermostatic mixing valves. With manual operation the tap functions for a period of time and then closes automatically. This operation makes the tap ideal for use in unsupervised areas such as sports changing rooms and washrooms. It is also perfect for use as a water economy device. The simple operation of the push tap enables users with limited mobility to use the facility.

Available in standard and contemporary styles the push tap is safe, reliable and reflects the quality of the intatec range of total washroom solutions.

multi directional wall mounted tap (single)  
NC190CP

- Simple operation
- Closes automatically
- Water economy
- Non concussive operation
- Operating pressure range 0.1 - 5 bar
